REGISTRATION PROCESS FOR HEALTH SCIENCE PROGRAMS

There is a process for students to become eligible and registered for Health Science Programs, and the first step begins with:

1. Participating in a Health Science Program Orientation.
2. After that, students will register for the Basic Skills Test. Students can take the test at any Broward Technical College. There is a \$15.00 fee to schedule a date to take the test. Scheduling is done in the registration office. State Board policies provide for testing exemptions. A program Counselor/Advisor can assist the student with identifying the Basic Skills exemption criteria.
3. After students take the Basic Skills Test, they will meet with a Counselor/Advisor to receive their assessment results. Practical Nursing students also need to register for the Test of Essential Academic Skills or "TEAS". There is a \$75.00 fee to schedule a date to take the TEAS. Scheduling is done in the registration office.
4. When students meet eligibility, the Counselor/Advisor will explain the registration process to the students.
5. In accordance with requirements set forth by the Joint Commission and the Jessica Lunsford Act, students applying for entrance to any health science education program that requires a clinical experience in a hospital, nursing home, or other health care facility must submit to a Level II criminal background check and a drug screening test. The applicant is responsible for paying the costs of both tests. The results of these tests may prevent the applicant from entering the program. In addition, students are also required to have current immunizations and a yearly physical examination.

IMPORTANT! HEALTH SCIENCE TECHNOLOGY PROGRAMS: International students must first come to the U.S. on a visitor's visa to fulfill all admissions requirements for these programs. After all requirements are met and the students have been accepted into these programs, the Form I-20 can then be processed and International students will be eligible to apply for the M-1 student visa.
